

# Missouri Café Sessions

## **Software Training Review**

### ***Everybody loves leftovers***

This all you can eat buffet of Day 1 software training elements offers extended practice, collaborating with other participants, or more focused assistance from ELM staff.

Frequently used elements such as creating, saving, and printing maps will be available.

## **Student Locator Tool**

### ***Chef's Special***

Measuring out the ingredients is just as important as measuring your students' progress. The session will introduce the map-based pre- and post-test system. Focus will be on how to use the student results to plan instruction and create individualized learning progressions.

## **Advanced Software Training**

### ***Let's have dessert***

Satisfy your curiosity about all the software has to offer in this session. Learn how to use the more advanced features that make interacting with the maps and software tool a fully engaging experience. Merging maps and using the software to collaborate and connect with all users will surely satisfy your technological sweet tooth.

## **Instructional Planning**

### **Sign me up for the progressive dinner**

Like the amuse-bouche to the post-meal espresso, this session will span all the elements of the ELM project. Practice using ELM maps, ELM units, curriculum, and instructional practices by collaborating with other participants.

<b>Session 1</b> <b>1:00-1:30</b>	Software Training Review	Advanced Software Training	Instructional Planning
<b>Session 2</b> <b>1:35-2:05</b>	Student Locator Tool	Advanced Software Training	Instructional Planning
<b>Session 3</b> <b>2:10-2:40</b>	Student Locator Tool	Advanced Software Training	Instructional Planning
